The rheumatic are seldem free from a certain screeness or stiffness in the joints and muscles, which serves a a constant reminder that the virus only waits an anfavorable change of weather, or the aid of a cold, to emphasize its presence with exeruciating twinges. To prevent the recurrence and mitigate the pain, there is no finer or safer source of relies than Hostetter's Stomach Bitters—a medicine every way preferable to the poisons—repeated infinitesimal doses of which are taken to the prejudice of health and the jeopardy of life, and without a permaneally remodule effect. Sleep banished by rheumatic and neuralgic pain at niget, is restored by this beneficent soother of the nervous system, and the slumber which it superinduces is far more rofreshing and non-efficial than the stuper into which the brain is thrown by a marcotic. Appetite and dingestion, as well as sleep, are improved by it, and it is an admirable regulator and tonic for the bowels and kidneys. Use it for rheumat sm before retirins.

LIGHT AND WATER.

REFORM MEASURES PREPARED BY CHAIRMAN SLAUGHTER.

Heavy Toll Paid by the County for Furnishing Jail and Court-House.

Chairman Slaughter of the County Court is seriously discussing plans for saving the county a heavy expendi-ture, which is now made for gas and water. The water company is paid \$1000 a year for furnishing water to the Court-House and \$500 for the jail The city pays but \$6000 a year for water for its sewers, fire department, station-house and work-house—only four times as much as the county pays for two buildings. No effort seems to have been made in the past to save the county this burden, to which is added the heavy one of plumbing, amounting to several hundred dollars a year, on account of pipes becoming choked with mud. It frequently happens, too, that the pressure is not sufficiently strong to carry the water to the top floor, the closets in consequence often becoming choked, and necessitating a heavy expense for repairs, besides making the building almost uninhab-itable by reason of the foul stench. Justice Slaughter thinks he can solve the problem, and save nearly the whole of the \$1500 tax, by digging a well in the court-yard and pumping the water up to a tank on the roof.
Thus a sufficient fall would be at all times secured. The distance to the times secured. The distance to the iall is not very great, and pipes could be laid along Front street from the pumping station to supply that institution. The water would be clear, and as the pipes would not clog, the cost of plumbing would be reduced to a plumbing would be reduced to a contract of the cost of plumbing would be reduced to a contract sum. Those who merely nominal sum. Those who have investigated the matter think the entire work can be done for about \$2000, perhaps less, maybe a little more, but at any rate the county would pay for it in less than two years and water supply afterwards would cost the county nothing. A number of the magistrates have been approached on the subject and they are all in favor

of allowing Chairman Slaughter to make the change, provided he is satisfied it will answer the purpose.

He is also discessing the light question. The county's gas bill is about \$1200 a year, and, if the Electric Light Company will make a satisfactory bid, its proregition will be considered.

its proposition will be considered. There has been a great deal of talk lately about an elevator, but the re-moval of the Taxing District officials to the old City Hall has suggested a way to save the expense of putting in extra machinery and of paying a boy to attend to it. The three rooms vacated might be used for the law library, which has heat, light and rent free, or it could be moved to the third floor, allowing the Chancery Court to take the large and elegant apartment which it now occupies in the second floor. The entire business of the County Court would then be confined to the first and second floors, and there would be no necessity for an

The First Sign

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss or Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health.

Ten years ago my health began to fall I was troubled with a distressing Cough. Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams. strong as ever. — Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Serofula, and know, if it taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowier, D. D. S., M. D., Greenville, Tenn.

Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed in duties more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vibilizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic ave., Brooklyn, N. Y.
